Dear Md Abu Sufian PHD:

Congratulations!

We are pleased to inform you that your Abstract, "SPATIOTEMPORAL AI FRAMEWORK FOR DETECTING AGEING RELATED CARDIOMYOCYTE DYSFUNCTION," has been accepted as a moderated poster presentation at the 75th Annual Scientific Session, March 28-30, 2026, in New Orleans, LA.

Research presented at the Annual Scientific Session is a critical contribution to the evolving science and innovative strategies central to the experience at ACC.26.

Abstracts and cases will receive global recognition and will be available through the online ePoster system to registered attendees. They will also be published online in the Journal of the American College of Cardiology.

We ask that all ACC.26 presenters attend the conference in-person so that science can be directly shared with attendees. We are not offering virtual or remote presentation capabilities. We hope you or a co-author can present in-person.

Please use the link below to view the acceptance information for your submission.

<https://www.abstractsonline.com/dashboard/login.asp?ald=296&targetMKey={385C6FAB-6F2F-4047-9924-8E6528E4BAD2}&targetMod=notifyTasks>

REGISTRATION INFORMATION:

- ACC is offering a special rate of 25% off the in-person registration fee for abstract and case presenters.
- The discount is non-transferable and is only applicable for the **ACC.26 in New Orleans (In-Person)** registration package. It does not apply to the ACC.26 @ Home (Virtual) registration package. We will provide more details upon acceptance.

QUESTIONS: Please see the [FAQs page](#) on the ACC.26 Website

On behalf of the entire ACC.26 Program Committee, thank you for choosing to highlight your scientific research at ACC.26. We look forward to your presentation and to seeing you in New Orleans!

Sincerely,

A handwritten signature in black ink, reading "Kathryn Berlacher". The script is fluid and cursive, with a long horizontal stroke at the end.
